

LXS80/S8 Quick start guide

To turn on the instrument press the top rotary knob.

First page will ask for the elevation and the QNH

Menu button advances the page to the right and back to Info page

To enter a task, select task page. A short press of the bottom rotary knob activates the quick access menu. In addition to MacCready, Ballast and Bugs you can Start, or Edit a task. If the Task is started you can restart or go to the next waypoint. You can also change the Navboxes through this menu.

To turn off the instrument, press and hold the top rotary knob for 3 seconds.
